[] The lower estimate, computed by the Office of the Comptroller, is based upon directorate average salary and on-duty strength projections through the end of the year as projected by the Office of Personnel. The Comptroller's estimate also takes into account adjustments for the increased cost to the Government of hospital insurance which became effective 1 January 1976. The directorate estimates are based upon the projection of current on-duty strength through the end of the year, and do not reflect increased insurance costs.

8. The Status of Non-Personal Services Obligations in each of the directorates was reviewed by the responsible group chief. Deviations from the straight-line obligation rate through 29 February were explained with no problems identified which might require attention.
